

# Cyprus IP Box decision tree

## Inside this download

When the 2.5% effective tax rate on qualifying IP profits is worth the compliance footprint — and when it is not — scored against common founder scenarios.

The full printable edition is being finalised for typography parity with the web version. This PDF is a branded placeholder so routes, analytics, and legal review can proceed in parallel. Re-download after the publish date shown on [veltris.info/playbooks](https://veltris.info/playbooks) — the file name stays the same.
